CircuPack

The Next Generation of Medication Adherence

Powered by motNext

Powered by motNext software, CircuPack is a unique end-to-end medication adherence solution that offers accuracy and efficiency for your pharmacy and for your patients. Simplifying medication management has never been easier with this affordable semi-automated solution!

Barcode-driven workflow improves accuracy and efficiency, making CircuPack a simple and economical way to implement your adherence program.

The CircuPack Card

This compliance card has a unique round design and is easy to use for any patient. Color-coded by day and clearly labeled, this card also includes a QR code that works with the CircuPack Patient Reminder App for easy medication adherence.

Patient Reminder App

The Patient Reminder App helps patients stay adherent by delivering an alarm when medications are due to be taken. The CircuPack App is available through the Apple App Store and Android Google Play. (Powered by PatchRX)

Medicine-On-Time Offers Single Dose Cards

Our single dose color-coded cards are perfect for mid-cycle changes, short-term medications and more! MOT Color-Coded Single Dose Cardswork great with the MOT Complete System.

Increase Profitability with Medicine-On-Time:

A Result-Driven Program:

From 2019 to 2021 through a partnership with PSAO, Pharmacy First, Medicine-On-Time piloted a program with Germ's Thrift Clinic in Opelousas, LA. The goal of the pilot was to measure the financial impact Medicine-On-Time products and services could have on their business. The pharmacy achieved amazing results and we can do the same for you! Keep reading to learn more (and check out our Performance Program on page 11!)

Pilot – Phase 1

Increasing patient PDC Scores

During the initial phase of the pilot, Pharmacy First measured the impact of Medicine-On-Time on Patient PDC scores. They measured PDC scores for patients for 6 months prior to starting Medicine-On-Time and for 6 months on Medicine-On-Time. The overall average increase in PDC scores for poor performing patients was 30.2%. Here is how the numbers broke down by disease state:

Disease-Specific Treatment	Increase in PDC Score
Cholesterol	21.6%
Cardiovascular	30.9%
Hypertension	32.4%
Diabetes Management	40.9%
Mental Health	32.1%

Pilot – Phase 2

Lowering DIR Fees

Phase 2 of the pilot focused on mitigating CVS Caremark DIR fees. From 2019 to 2020, Germ's Thrift Clinic's CVS Caremark DIR Fees moved from the highest end of the contract's variable range to the lowest end of the variable range, resulting in a significant decrease in DIR fees for the pharmacy.

Increasing Performance Payout

Medicine-On-Time's impact on PDC scores also increased the Performance Payout CVS Caremark makes available to pharmacies.

Becoming a 5-Star Pharmacy

As a result of Germ's Thrift Clinic's increased performance in all measures, the pharmacy increased its star rating from 3-Star to 5-Star within a matter of months!

From 2019 to 2020, Germ's Thrift Clinic's performance payout dollar amount increased 500%!

CSS Health's Advanced Practice Network

As the practice of pharmacy continues to evolve, integrating a clinical model into your business is important for your patients and your pharmacy. Expanding clinical services allows you to contribute to the best possible outcomes for your patients, while also improving your bottom line.

CSS Health's Advanced Practice Network (APN) is helping to advance the practice of pharmacy by offering reimbursement opportunities for clinical services. Through negotiated Health Plan and Payer contracts, CSS Health connects APN members to new cases, and new opportunities to practice at the top of your license.

Special Offer on MTM Pack for Advanced Practice Network Members

According to the 2018 STOMPP Study that measured the impact of pharmacy services on medication non-adherence, combining MTM services with multi-dose packaging helps you achieve improved medication adherence rates for your patients.

CSS Health now offers discounts to APN members on our MTM Pack, making it easy and cost-effective for you to improve outcomes for your patients!

Marketing Services

Promote your Practice, Attract New Business

Dedicated and results-driven marketing professionals work directly with your pharmacy staff to elevate your marketing program. We provide the tools and coaching you need to market your solutions and help you reach the target markets you value most.

As a Medicine On Time pharmacy you gain access to:

- Printable promotional materials
- Digital assets for your website and social media
- Webinar series with marketing tips, training and guidance from experienced marketing professionals

Customer Support

Problem Solved

Our team of IT professionals and Nationally Certified Pharmacy Technicians answer phones live and work with your business to diagnose and resolve medication adherence issues with little to no downtime. They have extensive experience with medication adherence and workflow management. Your staff will receive training and support needed to implement and maintain a successful program.

Performance Program

Pharmacy quality measures continue to play a key role in third party contracts and reimbursement. Understanding the financial impact and developing an effective adherence program is critical for success.

As your adherence partner, we have designed a program to help you achieve the following:

- Improved workflow
- Elevated Quality Measures
- Opportunity for financial gain
 - Lower DIR Fees
 - PBM Performance Payout Opportunities

Medicine On Time empowers your staff with the tools and knowledge they need to manage your performance program and take your business to the next level.

Star Technician Program

Empower your star technician to lead your adherence program! We will provide the training and support they need to be successful.

The Star Technician Program Includes:

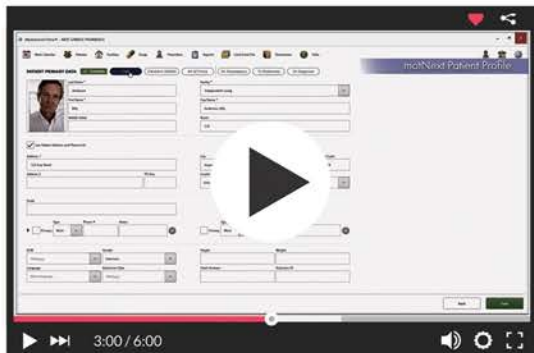

- Technician Adherence Workflow Training – with Certificate
- Technician Performance Program Training – with Certificate
- Access to monthly webinars
- One-on-one consultation
- If 25 patients are set up on the system by 90 days – technician receives a \$100 gift card of their choice from Medicine-On-Time

Software designed to help you streamline Your Adherence Program

- Organize medication adherence data for any patient
- Simplify compliance packaging, even for the most complex prescriptions
- Choose unlimited format possibilities for any patient in any care setting
- Choose from 40 reports, charting forms and lists that allow you to enhance patient care

motNext is "best in class" and continues to evolve to meet the ever-changing environment and requirements pharmacies face today.
